

Warm-up to Activate Prior Knowledge Geometric Solids

1. Identify the figure to the right.
2. How many faces are there?
3. What shape are the bases? How many are there?
4. What shapes are the lateral faces? How many are there?
5. How many edges are there?
6. How many vertices are there?

7. Identify the figure to the right.
8. What shapes are the bases? How many are there?
9. What shape is the lateral surface?
10. How many edges are there?
11. How many vertices are there?
